

1<sup>st</sup> October 2020

North West National Campaigns Group have been thinking about our community.

We want to think about the issues facing disabled people.

We are holding an online conference on 3<sup>rd</sup> December International Day of Disabled People.

At night we will have an online Christmas Party too.

The Conference will give us time to think about how we are affected by disability.

We will celebrate our brilliant community too.

We have invited North West bosses to the conference in the afternoon to help us think about how we are tackling disability in our areas.

Please come to share our thinking and celebrations.

Our easy read information about disability is attached.

Please email  
[icjr@pathwaysassociates.co.uk](mailto:icjr@pathwaysassociates.co.uk) to  
book a place.

## What is Disablism

---

Disabled people in the UK and around the world still face **oppression** and discrimination and violence.

**Oppression** means facing cruelty or unfair treatment over a long time.

---

The oppression and discrimination and violence disabled people face is called **disablism**.

**Disablism** means thinking or acting as though disabled people are worth less than other people.

We will keep working to end **disablism** in our communities.

---
